Tel - (641) 754-5760
Fax - (641) 754-5781

July 31, 2025

To the Honorable Mayor, City Council Members
And Citizens of the City of Marshalltown, Iowa:

The City of Marshalltown, Iowa, is required by various state and federal regulations to publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (generally accepted accounting principles or GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. Pursuant to these requirements, the Annual Comprehensive Financial Report (ACFR) of the City of Marshalltown, Iowa for the fiscal year ended June 30, 2024 as prepared by the Finance Department is hereby submitted in accordance with the provisions of Chapter 11.6 of the Code of Iowa.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The City's financial statements have been audited by Eide Bailly, L.L.P, a firm of licensed Certified Public Accountants, and they have issued an unmodified and adverse opinion on the City's financial statements for the year ended June 30, 2024. The independent auditor's report is located at the front of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing single audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. Information related to this single audit, including the Schedule of Expenditures of Federal Awards, Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Program and Report on Internal Control over Compliance Required by the Uniform Guidance and Schedule of Findings and Questioned Costs is included in the section entitled Compliance Section.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the City

The City was incorporated July 27, 1863 under the laws of the State of Iowa, later amended on June 16, 1975 under the City Home Rule Act. Marshalltown is located in the central region of the state, with a land area of 19.28 square miles and a population of 27,591 as of the 2020 census. The City is empowered to levy a property tax on real property located within its boundaries, and has the power to extend its corporate limits by annexation.

The City operates under a mayor-council form of government. Setting policy and legislative authority are vested in the seven-member council. The City Council is responsible for passing ordinances, resolutions, adopting and amending the budget, appointing committees and hiring the City Administrator as provided by city ordinance. The Mayor and Council are elected for a four-year staggered term rotation, allowing continuity within the membership. Four of the council members are elected from within their respective districts. The mayor and the three remaining council members are elected at large. The City Administrator, hired by the City Council is responsible for carrying out the policies and ordinances of the council, overseeing the day-to-day operations of the government, and for hiring the City Clerk and department directors.

The City provides the following services as authorized by its charter: public safety, public works, social services, culture, recreation, and community development. The City also provides additional services including sewage collection and disposal, a compost facility, a transit system, and municipal parking lots.

The City's financial statements include all funds, departments, boards and commissions, and other government entities that do not have separate legal status as required by accounting principles generally accepted in the United States of America.

In Marshalltown, the library is overseen by a board of directors and included in the operations of the general fund. The water distribution system, administered by an independent utility board of trustees, is included as a discretely presented component unit of the City.

The annual budget serves as the foundation for the City of Marshalltown's financial planning, development and control. The City Administrator and Finance Director are responsible for developing a budget proposal to the City Council. The FY2024 proposed budget was presented to the Council January through March of 2023. The Council was required to hold public hearings on the proposed budget and to adopt the final budget no later than April 30, 2023 for the fiscal year beginning the following July first. The appropriated budget is prepared by fund and function.

Local Economy

The 2020 census showed Marshalltown's population increasing .14% from 27,552 to 27,591. Unemployment in the City was at 3.4% as of June 2024. This is higher than the Iowa rate of 2.8% as of June 2024.

The number of building permits decreased in fiscal year 2024 compared to 2023. 11 new residential construction building permits were issued, creating 47 housing units for a value of \$8,872,128. 62 residential remodeling, repairs, additions and accessory structure permits were issued for a value of \$908,991. Total building permit activity for commercial and industrial totaled 19 building permits with a valuation of \$9,837,004. Larger commercial projects included additions to the High School, a new dentist office building, a new VA clinic, and 2 new fast food restaurants. The total building activity for the fiscal year included 92 permits with a valuation of \$19,618,123.

The Local Option Sales Tax (LOST) was approved by City residents via an election and became effective April 1, 2000. The voters passed a referendum August 1, 2017 to reallocate the LOST from 75% being designated for property tax relief, 20% for street projects and 5% allocated for any lawful purpose as authorized by the City Council to 78% for property tax relief and 22% for any lawful purpose authorized by City Council. This became effective November 1, 2017 and would sunset June 30, 2025. On March 5, 2024, a special election was held to renew the one cent local option sales tax with no sunset date. The allocation effective July 1, 2025 will be 75% for property tax relief and 25% any lawful purpose as authorized by City Council. For the fiscal year ending June 30, 2024, the City collected approximately \$4.4 million (accrual basis).

Major Initiatives

Fiscal year 2024 was again a year of restoration and growth, with many projects continuing into fiscal year 2025.

The first phase of the Downtown Implementation Plan started in late March 2023 with the reconstruction of six blocks of State Street, including new water, sewer and storm sewer as well as new streets and sidewalks. This project continues into FY2025 with completion expected in FY2025. It is a major step forward in revitalizing downtown Marshalltown. The next phase is the reconstruction of Main Street from Center Street to 3rd Avenue and Center Street from Church Street to State Street.

A \$500,000 Downtown Revitalization Grant is being used to help restore multiple façades for businesses. Work started in fiscal year 2022 but will not be completed until 2025.

Industrial development continued to be a priority in fiscal year 2024. The Edgewood Extension Project continued with completion in fiscal year 2024. This project provides a truck diversion route from Highway 14/North 3rd Avenue to help direct trucks and other industrial traffic to those areas without going through a residential/commercial portion of Highway 14 and Marion Street. The other aspect of this project is the creation of new industrially zoned lots on approximately 40 acres of land. The City also enrolled in the Iowa Economic Development Authority's Site Certification program for the certification of more than 90 acres of land to the east of the Edgewood Industrial Park. This process involves completing a number of studies and compiling information about the property to assist future developers in assurance that preliminary work has been done to understand the state of the property. Since being certified in January of 2024, IEDA has been marketing this land, which increases the number of development prospects.

Multi-family and single-family housing continue to be a development focus for the City in fiscal year 2024. JBS, the City's largest employer partnered with a developer to begin the construction of two multi-family buildings available to rent. This construction involved a partnership with the City to extend South 7th Avenue, which was completed in 2024, and where the possibility exists for future development of more than 80 acres of land. A third building is being constructed as part of a Community Development Block Grant related to disaster recovery from the 2020 derecho. Marshalltown saw awards for one other multi-family property as part of the CDBG-DR grant process. The Glenwood 7th Avenue Addition continues to construct single-family homes with an anticipated total of 40. The apartments on South 7th Avenue are complete and currently leasing. A new 42-unit senior apartment building was built and opened in the fall of 2024.

The City also utilized past planning efforts to undertake a number of quality of life projects which enhanced the community. The City Council and many other organizations formally adopted the Marshalltown Arts and Culture Master Plan, which was facilitated with the Marshall County Arts and Culture Alliance. The City is using \$2 million from the Destination Iowa Creative Placemaking grant that focuses on the Linn Creek District and enhancing connectivity and provide gathering spaces at a trailhead for the Iowa River's Edge Trail and the creation of a Water Plaza. These projects were bid and let in 2024 with construction in 2025.

The City is using bond funds to reconstruct streets, repair streets, build trails, and upgrade parks. Riverview park started its first phase of construction, which included replacing the pedestrian bridge, and replacing playground equipment.

A major initiative that started in fiscal year 2023 was Marshalltown Water Works undertaking an engineering and design process for increasing the capacity and redundancy of the community's treated water. In fiscal year 2025, Water Works decided to move forward with bids for the improvements, which will involve the construction of new buildings for treatment and storage at the existing Sand Road site. The engineering and construction contracts total over \$50 million for the design and construction of a new reverse osmosis membrane treatment process and is expected to be completed in fiscal year 2027.

Looking ahead, many significant capital projects are planned for the coming years, while others are yet to be prioritized and funded. The City is focused on maintaining existing infrastructure while balancing quality of life needs and new infrastructure for development.

Long-Term Financial Planning

Maintenance and rehabilitation of the City's infrastructure (such as streets, sewers, bridges, trails, parking lots) and park improvements have continued to be the major priority of the City during the last five years. The City annually adopts a five-year Capital Improvement Program that provides a framework for the development and maintenance of infrastructure to meet current and future needs. In conjunction with this program, the City of Marshalltown includes a five-year equipment replacement plan.

The City will continue to rely upon general obligation bonds and/or Local Option Sales Tax to fund significant infrastructure improvements.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its annual comprehensive financial report for the years ending June 30, 1990, and consecutively 1993 through 2023. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The preparation of this report could not be accomplished without the dedicated services of the entire Finance Department staff. We also want to acknowledge the assistance from many other department staff, agencies and organizations which are all vital to the culmination of this report.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Diana Steiner".

Financial Statements
June 30, 2024
City of Marshalltown

Independent Auditor's Report

To the Honorable Mayor and
Members of the City Council
City of Marshalltown, Iowa

Report on the Audit of the Financial Statements

Adverse and Unmodified Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Marshalltown, Iowa (the City), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Adverse Opinion on the Aggregate Discretely Presented Component Units

In our opinion, based on our audit and the report of other auditors, because of the significance of the matter discussed in the Basis for Adverse and Unmodified Opinions section of our report, the accompanying financial statements referred to above do not present fairly the financial position of the aggregate discretely presented component units of the City of Marshalltown, Iowa, as of June 30, 2024, or the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Marshalltown Water Works, which represents the entire assets, net position, and revenues of the reported aggregate discretely presented component units as of and for the year ended June 30, 2024. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Marshalltown Water Works is based solely on the report of the other auditors.

Unmodified Opinions on Governmental Activities, Business-Type Activities, Each Major Fund, and the Aggregate Remaining Fund Information

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Marshalltown, Iowa, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Adverse and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse and unmodified audit opinions.

Matters Giving Rise to Adverse Opinion on the Aggregate Discretely Presented Component Units

As described in Note 1 to the financial statements, the financial statements do not include financial data for the Friends of the Marshalltown, Iowa Public Library, Inc. (an excluded discretely presented component unit). Accounting principles generally accepted in the United States of America require the financial data for the component unit to be reported with the financial data of the City's primary government unless the City also issues financial statements for the financial reporting entity that include the financial data for its component unit. The City has not issued such reporting entity financial statements. The effects of not including the Friends of the Marshalltown, Iowa Public Library, Inc. financial statements on the aggregate discretely presented component units opinion unit has not been determined.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in the City's total OPEB liability, related ratios, and notes, budgetary comparison schedule of receipts, disbursements, and changes in balances – budget and actual (cash basis) – governmental funds and enterprise funds, budgetary comparison schedule – budget to GAAP reconciliation, notes to required supplementary information – budgetary reporting, schedule of city's proportionate share of net pension liability – Iowa Public Employees' Retirement System – IPERS, schedule of city contributions – Iowa Public Employees' Retirement System – IPERS, notes to required supplementary information – pension liability – Iowa Public Employees' Retirement System – IPERS, schedule of city's proportionate share of net pension liability – Municipal Fire and Police Retirement System of Iowa – MFPSI, and schedule of city contributions – Municipal Fire and Police Retirement System of Iowa – MFPSI be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements, schedule of bond maturities, and the schedule of expenditures of federal awards required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Because of the significance of the matter described in the Basis for Adverse and Unmodified Opinions section of our report, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 31, 2025 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Dubuque, Iowa
July 31, 2025

The following is a narrative overview and analysis of the financial activities of the City of Marshalltown for the fiscal year ended June 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-5 of this report and the City's financial statements, which begin on page 22. Additional historical information can be found in the Statistical Section of this report supporting some of the analysis presented in this discussion and the transmittal letter.

Financial Highlights of Primary Government

- Government-wide, total assets plus deferred outflows of resources of the City of Marshalltown exceeded its total liabilities plus deferred inflows of resources at the close of the most recent fiscal year by \$139,589,735 (net position) as compared to \$125,852,230 in the prior year, which is an increase of \$13,737,505. This increase is primarily due to the downtown State Street reconstruction, continuing with the Edgewood Street and 8th Avenue extension project, improvements to Riverview and Kiwanis Parks, sanitary sewer headworks/CIPP project, and various infrastructure projects throughout the City.
- As of the close of the current fiscal year, the City of Marshalltown's governmental funds reported combined ending fund balances of \$55,248,978 an increase of \$14,502,163 in comparison with the prior year. This change was primarily from expenditures related to remaining bond proceeds for projects in process and the receipt of grant revenue related to prior year expenditures.
- \$5,431,042 in unassigned fund balance is available for spending at the City's discretion. Prior year unassigned fund balance was \$5,152,216. This is an increase of \$278,826.
- The City's total debt had a net increase of \$8.8 million during the current fiscal year. This change reflects the retirement of existing bonds of \$8.3 million and new issuances of \$10.2 million of GO Debt and \$6.9 million of Sewer notes. The new G.O. debt was for reconstruction of the downtown Main and Center Streets, other street improvements, and a stormwater outlet project. The debt for the Sewer notes are for the Headworks/CIPP project continuing from the prior year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Marshalltown's basic financial statements. The City of Marshalltown's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City of Marshalltown's finances, in a manner more similar to a private-sector business.

The statement of net position presents information on all of the City of Marshalltown's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Marshalltown is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Marshalltown that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Marshalltown include public safety, public works (roads, utilities and traffic controls), health and social services, parks and recreation, library, economic development and general government. The business-type activities of the City of Marshalltown include compost, aquatic center concessions, storm sewer, water pollution control and transportation activities.

The government-wide financial statements include the City of Marshalltown itself (known as the primary government) and also a legally separate Water Works component unit for which the City of Marshalltown is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Marshalltown, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Marshalltown can be divided into three categories: governmental, proprietary and fiduciary.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of governmental funds is narrower than that of the government-wide financial statements, so it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the city's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Marshalltown maintains 15 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances. Major funds include General, Road Use Tax, Local Option Sales Tax, HUD Programs, Debt Service, Property Tax, American Rescue Plan, Grant fund, and Public Works and Other Projects Funds. Data from the other six non-major governmental funds are combined into a single, aggregated presentation in the governmental funds financial statements. Individual fund data on each of the non-major governmental funds is provided in the form of combining statements in the supplementary information section.

The City of Marshalltown adopts an annual appropriated budget for all funds as required by state statute. In Iowa, budgetary compliance is at the function level, transcending fund level accounting as demonstrated in this report. Budgetary comparison statements have been provided for the governmental and enterprise/proprietary fund levels. This comparison demonstrates the City's compliance with state requirements.

Proprietary funds. The City of Marshalltown maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Marshalltown uses enterprise funds to account for its Storm Sewer, Water Pollution Control, Compost, Transit and Concession activities. Internal service funds are an accounting vehicle used to accumulate and allocate costs internally among the City of Marshalltown's various functions. The City of Marshalltown uses internal service funds to account for its insurance operations. This service predominantly benefits governmental rather than business-type functions, so they have been included with governmental activities in the government-wide financial statements. Individual fund data for the internal service funds are provided in the form of combining statements in the supplementary information section.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Storm Sewer, Water Pollution Control and Non-major Enterprise funds, namely Compost, Transit and Concession activities.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not available to support the City of Marshalltown's own programs. The most significant fiduciary fund maintained by the City of Marshalltown is the 911 commission fund; which records the payroll activity of the 911 commission. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. The City's budgetary comparison schedule, retirement plans, and other postemployment benefit plan information is presented as required supplementary information immediately following the notes to basic financial statements. The combining statements referred to earlier in connection with non-major governmental, non-major enterprise funds, internal service funds, and custodial funds are presented immediately following the required supplementary information (RSI).

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Marshalltown, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$139,589,735 at the close of the most recent fiscal year.

City of Marshalltown
Management's Discussion and Analysis (MD&A)

By far, the largest portion of the City of Marshalltown's net position reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less depreciation/amortization and any related debt at \$104,204,665. The City of Marshalltown uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Marshalltown's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the City of Marshalltown's governmental and business-type activities net position of \$21,272,574 represents resources that are subject to external restrictions. Prior year comparison shows \$16,856,147, an increase of \$4,416,427.

The following is a more detailed review of the year's operation.

Governmental Activities. Governmental revenues in the current year increased by \$5,915,000. Within this difference, charges for services increased by \$600,000, mostly from a new revenue source from Automatic Traffic Enforcement (ATE) speeding tickets. Operating/capital grants and contributions increased by \$1,953,000 primarily due to using American Rescue Plan Act (ARPA) funds for State Street reconstruction. Also, interest earned increased due to higher interest rates. Governmental expenses increased by \$2,137,000 from the prior fiscal year due to new ATE contractor fees, street construction expenses, CDBG housing grant expenditures, and other grants.

Business-type Activities. Revenues in the current year increased by \$1.0 million. Within this difference, charges for services increased by \$1.2 million, primarily due to the increased sewage volume used by JBS meatpacking plant. Operating/capital grants and contributions decreased by \$665,000. Interest earned also increased. Business-type expenses increased by \$2.2 million due to increased services and supplies for water pollution control and storm water, and increased contracted services for transit.

Financial Analysis of the Government's Funds

As noted earlier, the City of Marshalltown uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The financial reporting focus of the City of Marshalltown's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the City of Marshalltown's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Marshalltown's governmental funds reported a combined ending fund balance of \$55,248,978, an increase of \$14,502,163 in comparison with the prior year. Of this total amount \$5,431,042 is unassigned fund balance, which is available to meet the future financial needs of the City. \$48,388,320 is restricted, \$250,000 is committed and \$1,179,616 is nonspendable.

The General fund is the chief operating fund of the City of Marshalltown. At the end of the current fiscal year this fund balance increased by \$518,936 to \$7,522,003, with an unassigned fund balance of \$6,683,817 and a committed balance of \$250,000. The remaining \$588,186 is nonspendable (prepaid items).

The Road Use Tax fund is apportioned to the City from the state gasoline taxes based upon population. This fund is used for street related purposes only. Major street resurfacing and reconstruction are scheduled each year in the spring after the impact of winter weather can be determined. At the end of the current fiscal year, the ending fund balance of \$10,394,333 is an increase of \$2,342,435 compared to the prior year.

The Housing and Urban Development (HUD) program for Section 8 housing assistance continued all year and the Lead Abatement grant was awarded another \$5 million grant in December of 2023 that can be used over a 4 year period, which was funded from the Lead-Based Paint Hazard Control grant. The City administers these grants in collaboration with many health and welfare agencies throughout the community. The City expended \$2,066,851 under these programs, which is a decrease of \$330,417 in comparison with the prior year.

Collections for Local Option Sales Tax (L.O.S.T.) are allocated to property tax relief (78%) and any lawful purpose designated by the Council (22%). Property tax relief dollars in the amount of \$3,333,609 were transferred to the Debt Service Fund to lower the property tax levy. The Council used \$288,000 of their designated share to increase the Cash Flow Reserve Fund. Some of the other Council designated projects this fiscal year included grant match contribution for the Downtown Revitalization of \$262,192; two \$50,000 payments for construction of new downtown businesses, and \$95,000 to the Marshalltown Central Business District for downtown economic revitalization. At fiscal year-end, the fund balance was \$5,927,763, which was a \$451,546 decrease from the prior fiscal year.

The Property Tax Fund is used to account for all special revenue property tax levies utilized by the City. These levies include the emergency levy, police and fire retirement, FICA and IPERS, and other employee benefits. The total fund balance in this fund decreased by \$669,348 in FY24 as the City intentionally budgeted to lower the fund balances to in order to lower the property tax levy rate.

The Grants Fund is used to track revenues and expenses related to various grants. During 2024, intergovernmental revenue of \$2,908,338 and expenditures of \$3,324,116 resulted mostly from grant activity related to the Community Development Block Grants/State's Program and Non-Entitlement Grants in Hawaii.

During fiscal year 2023, the second half of the American Rescue Plan Act funds were received in the amount of \$1,993,589. \$2,637,358 was recognized as intergovernmental revenue during fiscal year 2024. Expenditures and transfers out included the MPACT contract with YSS to assist the Police Department with crisis situations dealing with mental health/social work issues, the Edgewood Street/Stormwater project, State Street reconstruction and revenue replacement.

The Debt Service Fund accounts for the City's debt service property tax levy and all related debt. This activity is related to the debt backed by the full faith and credit of the City. In the current fiscal year this fund paid \$6 million in principal and interest payments. The fund balance increased by \$167,000, due to higher interest earned than expected.

Changes in the Public Works and Other Projects capital project fund is due to the continuation of several street projects during the fiscal year and several park improvement projects. The City issued bonds for new projects in FY24 for \$9.8 million for the construction and improvement of streets and stormwater projects

Enterprise funds. The City of Marshalltown's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail.

The ending net position for the enterprise funds was \$77,970,387 a net position increase of \$5,264,665.

Budgetary Highlights

The City of Marshalltown presents budgetary information as allowed by GASB Statement No. 41. Budgets are based on nine functional areas as required by state statute, not by fund or fund type. During the year ended June 30, 2024, revenues and transfers in for the general fund operations, on the GAAP basis, were less than revenue estimates by \$1,128,292 and departmental expenditures and transfers out on the GAAP basis were \$1,381,325 less than expenditure estimates.

During the fiscal year ended June 30, 2024, there was one budget amendment dated April 22, 2024. Actual expenditures on a cash basis were less than the budgeted amounts on a cash basis in each of the nine functional areas before the budget amendment and at the close of the fiscal year.

Capital Asset and Debt Administration

Capital assets. The City of Marshalltown's investment in capital assets for its governmental and business type activities as of June 30, 2024 amounts to \$259,107,062. This investment in capital assets includes land, land improvements, buildings, machinery and equipment, park facilities, roads, highways and sewers. The total increase in the City of Marshalltown's investment in capital assets for the current fiscal year was \$11,299,037, of which \$1 million was from Construction in Progress which includes major work on State Street and the Water Pollution headworks, digester, and CIPP projects.

Construction in Progress	7,447,279	9,581,636	11,683,964	8,510,780	19,131,243	18,092,416
Total	\$ 138,315,501	\$ 133,876,445	\$ 120,791,561	\$ 113,931,580	\$ 259,107,062	\$ 247,808,025

Major capital asset events during the current fiscal year include the following:

- Ongoing project of Water Pollution headworks, digester and CIPP construction by contractors (SRF will fund up to \$13.125 million less \$2 million forgiven when project completed).
- Various machinery and equipment purchases throughout the year including new vehicles for several departments, street paint machine, wheel loader, mowers, new playground equipment at Kiwanis, Riverview and Peterson parks.
- Continuation and completing of various street and storm water projects.
- Irrigation system for 6th Street softball fields.

Additional information on the City' of Marshalltown's capital assets can be found in Note 5 on pages 53-54 of this report.

Long-term debt. At the end of the current fiscal year, the City of Marshalltown had total debt outstanding and unamortized premiums and discounts of \$76,007,976. Of this amount, \$58,485,384 comprises debt backed by the full faith and credit of the City. The remainder of the City of Marshalltown's debt in the amount of \$17,522,593 represents bonds secured solely by revenues generated from the sanitary sewer fees.

The City's total debt had a net increase of \$8.8 million during the current fiscal year. This change reflects the retirement of existing bonds of \$8.3 million and new issuances of \$10.2 million of GO Debt and \$6.9 million of Sewer notes. The new debt was for the streets and stormwater projects.

Moody's Investors Service assigned a bond rating in November 8, 2023. The City maintained their Aa2 bond rating.

State statute limits the amount of general obligation debt a governmental entity may issue to 5 percent of its total assessed valuation. The current debt limitation for the City of Marshalltown is \$92,815,123 significantly in excess of the City of Marshalltown's outstanding general obligation debt.

Additional information on the City' of Marshalltown's long-term debt can be found in Note 6 on pages 55-58 this report.

Economic Factors and Next Year's Budgets and Rates

The local economy of the City remains strong and is creating more private public agreements to maintain that strength. The regular taxable property tax valuations as of January 1, 2023, which was applied to FY2025, were \$1,007,332,860 (excluding debt service), which was an increase over the prior year of \$78 million. The property tax rollback is increasing from 46.34% in FY25 to 47.43% in FY26 and for commercial/industrial property, the first \$150,000 is taxed at the lower residential rollback rate, then at the 90% commercial rate. The Iowa legislature, under House File 718, placed several revenue limitations on the City's general fund levies. There are no more separate levies for the library, community band, civic center, and emergency levy; rather, there is a combined general fund levy (CGFL). This levy rate is limited based on taxable growth. For FY25, if over 3% growth, the CGFL has a 2% reduction factor and if growth is over 6%, a 3% reduction factor is applied.

For the fiscal year ending June 30, 2024, the City issued 92 building permits totaling \$19.6 million in construction value. Two building permits were issued for new large commercial and industrial projects. Eleven new single-family permits were issued, of which buyers can take advantage of a \$10,000 new construction incentive offered by the Marshalltown Area Chamber of Commerce. The City has pledged to support 25 percent of this incentive in lieu of tax abatement. Sixty-two residential and 17 commercial property permits were issued for renovation/alternations.

The city continues to pursue development of vacant spaces in the Downtown. The Brownfields grant and other incentives are being used to entice buyers to purchase vacant buildings in the Downtown as well. The City also continues to sell vacant lots in the community to those that may want to develop or combine to adjacent lots.

The City began the first phase of the Downtown Implementation Plan in 2023 which includes reconstruction of six-blocks of State Street, including new water, sewer and storm sewer as well as new streets and sidewalks. Construction is planned to be completed on this phase in FY25. Construction on three blocks of East Main Street and two blocks of Center Street with construction began in FY2025.

Façade work is continuing on storefronts thanks to a \$500,000 Downtown Revitalization Grant through the Iowa Economic Development Authority cost-share funds with completion anticipated by end of 2025.

New commercial development is also occurring outside of downtown. A new VA medical clinic and a credit union opened in fiscal year 2024. A local car dealer expanded their capital improvements. Two new fast food restaurants opened in calendar year 2024.

The City is also focusing on industrial growth. The City is participating in the Iowa Economic Development Authority's Site Certification program for 90 acres of City-owned farmland which will increase the number of development prospects.

Construction of a trailhead for the Iowa River's Edge Trail, Water Plaza, and playhouse continues into FY25 utilizing a \$2 million Destination Iowa Creative Placemaking grant and other grants/fundraising in the community.

The budget for the ensuing fiscal year 2025 considers many factors and estimates about the finances of the upcoming year. City-wide there was an increase in property tax valuations in FY25. Local Option Sales Tax collections of (\$4.2 million) and hotel/motel tax (\$650,000) were increased in the budget. There was a special election in March 2024 and voters passed to renew the one cent local option sales tax and remove the sunset date of June 2025. Also the use will be changed from 78% to 75% property tax relief and 22% to 25% for any lawful purpose which become effective July 1, 2025. The road use taxes collected by the state are stable but the forecast is to maintain a conservative projection for these revenue sources.

The following items are also forefront in revenue and expenditure projections: (a) The City's contribution rate for the Municipal Fire and Police retirement system decreased in fiscal year 2023 to 23.9%, decreased in fiscal year 2024 to 22.98% and will decrease in fiscal year 2025 to 22.66% and decrease in fiscal year 2026 to 22.55%. The employer share of the rate fluctuates on an annual basis. (b) The Iowa Public Employees Retirement System remained steady for fiscal years 2021 through 2026. (c) Compliance with sanitary and storm water regulations will continue to be implemented over the next several years. A sanitary sewer rehabilitation project and headworks equipment replacement project for over \$13 million started in FY23 and will continue through FY26. The City will have \$2 million forgiven at the end of the project. (d) The cost of health care continues to rise. The City has experienced an increase in health-related claims and an increase in premium will occur in fiscal year 2025. Changes in claims are always a factor that the City continues to monitor. More preventive care options are encouraged to help avoid the high dollar claims. (e) Finding staff to hire has been challenging in this economy, especially police officers. (f) The city continues to see increases in utilities, supplies, contracted services, maintenance agreements, etc. due to inflation and supply shortages. (g) The City received \$3,987,179 in prior years from the American Rescue Plan Act and has used it for spend it on street, stormwater, park projects, MPACT, and revenue replacement. In FY25-26, the remainder will be spent on MPACT and a newly constructed water plaza.

Requests for Information

This financial report is designed to provide a general overview of the City of Marshalltown's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report, or requests for additional financial information should be addressed to the Finance Director, 24 N. Center Street, Marshalltown, IA 50158-4911.

City of Marshalltown
Reconciliation of the Balance Sheet
Governmental Funds to the Statement of Net Position
June 30, 2024

Total governmental fund balances \$ 55,248,978

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in governmental funds.

The cost of capital assets is	\$ 138,315,501
Accumulated depreciation/amortization is	<u>(58,264,773)</u>

80,050,728

Some of the City's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and, therefore, are recognized as deferred inflows of resources, in the governmental funds.

1,986,214

OPEB and Pension related deferred outflows of resources and deferred inflows of resources are not due and payable in the current period and therefore are not reported in the funds.

OPEB related deferred outflows	4,907,747
Pension related deferred outflows	3,454,914
OPEB related deferred inflows	(5,158,452)
Pension related deferred inflows	<u>(691,768)</u>

2,512,441

Internal service funds are used by the City's management to charge the costs of self-insurance programs to the individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.

(171,282)

Some liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the funds.

Those liabilities consist of:

Bonds and notes payable	(53,898,297)
Accrued interest on the bonds and notes	(159,258)
Subscription liability	(93,507)
Compensated absences	(1,059,648)
Net pension liability	(10,923,367)
Total OPEB liability	<u>(11,873,654)</u>

(78,007,731)

Net position of governmental activities

\$ 61,619,348

City of Marshalltown
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Funds to the Statement of Activities
Year Ended June 30, 2024

Net change in fund balances – total governmental funds \$ 14,502,163

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation/amortization expense. In the current period, these amounts are:

Capital outlay	\$ 4,974,422
Depreciation/amortization expense	<u>(3,957,870)</u>
Net change in capital assets	1,016,552

Because some revenues will not be collected for several months after the City's fiscal year end, they are not considered "available" revenues and are unavailable in the governmental funds. Unavailable revenues changed by these amounts this year:

Intergovernmental	(2,967,367)
Charges for service	<u>362,559</u>
Net effect	(2,604,808)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities. In the current period, these amounts are:

Debt repayments, forgiveness, and changes in accrued interest	5,026,027
Debt proceeds, including net effect of premiums	<u>(10,089,971)</u>
Net effect	(5,063,944)

Some items reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

Change in compensated absences	82,879
Net effect of OPEB related activity	5,029
Net effect of pension related activity	<u>352,126</u>
Total additional expenses	440,034

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net income (loss) of the internal service funds is reported with governmental activities.

Change in net position of governmental activities	<u>\$ 8,472,840</u>

Notes to Financial Statements
June 30, 2024
City of Marshalltown

Note 1 - Summary of Significant Accounting Policies

The City of Marshalltown, Iowa (City) was incorporated in 1863 under the laws of the State of Iowa, later amended in July 1975, under the City Home Rule Act. The City operates by ordinance under the Mayor-Council form of government with the Mayor and Council Members elected on a non-partisan basis. The City of Marshalltown, Iowa, provides such services as are authorized by its charter to advance the welfare, health, comfort, safety, and convenience of the City and its inhabitants.

The accounting and reporting policies of the City relating to the accompanying financial statements conform to U.S. generally accepted accounting principles (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following represents the more significant accounting and reporting policies and practices used in the preparation of these financial statements:

Reporting Entity

For financial reporting purposes, the City of Marshalltown, Iowa, has included all funds, organizations, agencies, boards, commissions, and authorities, except for the Friends of the Marshalltown, Iowa Public Library, Inc. as noted below. The City has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the City to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the City.

These financial statements present the City of Marshalltown, Iowa (the primary government) and its component unit. The following component unit is an entity which is legally separate from the City, but is financially accountable to the City or whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

Discretely Presented Component Unit: The Marshalltown Water Works (Water Works) was established to operate the City's water works facilities. The Water Works is governed by a three-member board of trustees appointed by the Mayor. A financial benefit/burden relationship exists between the City and the Water Works in that the City is authorized by statute to issue general obligation debt for a City utility and may certify taxes for the payment of the debt. The Water Works is presented as a proprietary fund type and has a June 30 year-end.

Complete financial statements for the individual component unit may be obtained at the respective entity's administrative office as follows:

Marshalltown Water Works
205 East State Street
Marshalltown, Iowa 50158

Excluded Discretely Presented Component Unit: The Friends of the Marshalltown, Iowa Public Library, Inc. is an entity which is legally separate from the City. The organization was created under Section 501(c)3. The purpose of the organization is to assist the City's Public Library in the performance of its responsibilities to the citizens of the City. The financial transactions of this component unit have not been presented because the information was not made available.

Jointly Governed Organizations: The City also participates in several jointly governed organizations that provide goods or services to the citizenry of the City but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The City Council is a member of or appoints representatives to the following boards and commissions: Mid Iowa Drug Task Force, Marshall County Emergency Management Commission, Marshall County 911 Joint Services Board, Marshall County Assessor's Conference Board, Marshall County Solid Waste Management Commission, and the Marshall County Communication Commission. Financial transactions relating to these organizations are included in the City's financial statements only to the extent of the City's contributions, if any, to these organizations.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for services. Likewise, the *primary government* is reported separately from its certain legally separate *component unit* for which the primary government is financially accountable.

The Statement of Net Position presents the City's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following three categories.

Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment, including special assessments. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Road Use Tax Fund* is used to account for the operations of street related expenses. Financing is provided by the City's share of state gasoline taxes, which are received on a per capita basis. State law requires these revenues to be received and disbursed in a special fund.

The *Local Option Sales Tax Fund* is used to account for the taxes collected and 78% to be applied towards general property tax relief and 22% for Council designated projects.

The *Property Tax Fund* is used to account for property tax collections for the emergency fund levy and employee benefits, which are then transferred to the general fund.

The *HUD Programs Fund* is used to account for the operations of a Federal Section 8 rental voucher assistance program, a grant from HUD to assist with security deposits and first month's rent program, and lead abatement program.

The *Grant Fund* is used to account for the miscellaneous self-balancing grant funds of the City.

The *American Rescue Plan Fund* is used to account for the Coronavirus State and Local Recovery Funds established under the American Rescue Plan Act.

The *Debt Service Fund* is used to account for the servicing of general obligation debt.

The *Public Works and Other Projects Fund* is used to account for resources used in the acquisition and construction of capital facilities and other capital assets with the exception of those that are financed through the Culture and Recreation Projects Fund, Airport Projects Fund, or through proprietary funds.

The City reports the following major proprietary funds:

The *Water Pollution Control Fund* is used to account for the operation and maintenance of the City's wastewater treatment facility and sanitary sewer. Services are supported primarily by user charges.

The *Storm Sewer Fund* is used to account for the operation of the City's storm sewers. Services are supported primarily by user charges.

Additionally, the City reports the following fund types:

Internal service funds account for group insurance benefits, occupational insurance benefits, and workmen's compensation benefits provided to other departments on a cost reimbursement basis.

Custodial funds function primarily as a clearing mechanism for cash resources which are collected by the City, held as such for a brief period and then disbursed to the authorized recipient. The custodial funds of the City are used for the 911 Commission and Surety Bonds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

Property taxes are recognized as revenue in the year for which they have been levied, provided they are collected within 60 days after year-end. Sales taxes are considered measurable and available at the time the underlying transaction occurs provided they are collected within 60 days after year-end. Other taxes are considered measurable and available when they have been collected by the state or other levying authority. Special assessments receivables are recognized at the time of their levy. The related revenue is recognized at the time the assessment is due or collected. Licenses and permits, fines and forfeitures, and miscellaneous revenues are generally recognized as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recognized as earned.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water pollution control and storm sewer functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Under terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the City's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenues.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and of the City's internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Cash Equivalents, and Investments. The City maintains a cash and investment pool. These pooled deposits are invested in interest-bearing cash and investment accounts or certificates of deposit. Interest on the pooled cash and investments is recognized as revenue when earned and allocated to the funds on a systematic basis. Cash and investments are separately held by the discretely presented component unit for which interest is also recognized as revenue when earned.

Property Tax Receivable, Including Tax Increment Financing. Property tax, including tax increment financing, in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the City to the County Board of Supervisors. Current year delinquent property taxes receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the City to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the City is required to certify its budget to the County Auditor in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is unavailable and will not be recognized as revenue until the year for which it is levied.

The County Treasurer bills and collects taxes for the City. Taxes for the year ended June 30, 2024, were certified with the County during the preceding fiscal year and were due in two equal installments by September 30, 2023 and March 31, 2024. Any County collections on the 2023-2024 tax levy remitted to the City within sixty days subsequent to June 30, 2024, are recorded as property tax revenues. Taxes not collected and remitted to the City within sixty days subsequent to June 30, 2024, are delinquent and have been recorded as receivables. This amount is recorded as unavailable revenue in the governmental funds but is recognized as revenue in the government-wide financial statements.

Accounts Receivable and Unbilled Usage. Accounts receivable are recorded at the time the service is billed. Unbilled usage for service consumed between periodic scheduled billing dates is estimated and is recognized as revenue in the period in which the service is provided.

Due From and Due to Other Funds. Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Due From Other Governments. Due from other governments represents various shared revenues, grants, and reimbursements from other governments. Shared revenues are recognized during the period when received by the collecting authority, the State of Iowa. Federal grant revenue is recognized when expenditures for the purpose of the grant have been incurred in the government-wide financial statements and as long as it meets the measurable and available criteria in the governmental fund statements.

Inventories and Prepaid Items. Inventories of materials and supplies in the proprietary and governmental fund types are stated at cost using the first-in, first-out method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The costs of governmental fund prepaid items are recorded as expenditures when consumed rather than when purchased.

Land Held for Resale. Land held for resale is held at lower of cost or net realizable value.

Restricted Assets. Funds set aside for the payment of City enterprise and component unit revenue bonds are classified as restricted assets since their use is restricted by applicable bond indentures. Other restricted assets include funds for customer deposits restricted for application to unpaid customer accounts or for refund to customers.

Lease Receivables. The City is a lessor for noncancelable leases for buildings located at the City’s airport. The City recognizes a lease receivable and a deferred inflow of resources in the governmental activities and governmental fund financial statements.

At the commencement of the lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term. Key estimates and judgments include how the City determines the discount rate it uses to discount the expected lease receipts to present value, lease term and lease receipts.

The City uses its estimated incremental borrowing rate as the discount rate for leases.

The lease term included the noncancelable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The City monitors changes in circumstances that would require a restatement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Deferred Outflows of Resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and OPEB expense and contributions from the employer after the measurement date, but before the end of the employer's reporting period.

Deferred Inflows of Resources. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources consist of unavailable revenues, unrecognized items not yet charged to pension expense or OPEB expense, and leases where the City is a lessor.

Although certain revenues are measurable, they may not be available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenue represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

Unavailable revenue at the fund level consists of property tax receivable, special assessments receivable, succeeding year property tax receivable, and other receivables not collected within 60 days after year-end. Unavailable revenue in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year in which they are levied.

Compensated Absences. City employees accumulate a limited amount of earned but unused vacation, compensatory time and sick leave hours for subsequent use or for payment upon termination, death, or retirement. Accumulated sick leave is generally paid at 25%, not to exceed 1,440 hours for municipal fire employees, 1,072.5 hours for municipal police employees and 1,040 hours for all others, upon retirement if the employee has at least 15 years of service. All vacation and sick leave is accrued when incurred in the government-wide and proprietary financial statements. Governmental funds record the earned vacation and vested sick leave hours as an expenditure of the current year to the extent it is paid during the year. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2024.

Water Works employees accumulate a limited amount of earned but unused vacation hours for subsequent use or for payment upon termination, retirement, or death. The liability is recorded on the Statement of Net Position based on rates of pay in effect as of June 30, 2024.

Long-Term Obligations. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Subscription Liabilities. SBITA liabilities represent the City's obligation to make subscription payments arising from the subscription contract. Subscription liabilities are recognized at the subscription commencement date based on the present value of future subscription payments expected to be made during the subscription term. The present value of subscription payments are discounted based on a borrowing rate determined by the City.

Capital Assets. Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (\$50,000 for infrastructure) and an estimated useful life in excess of two years. All land is recorded regardless of cost. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. All infrastructure of the City has been recorded to date.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government is depreciated/amortized using the straight-line method over the following estimated useful lives:

	Years
Land improvements	10-30
Buildings and structures	30-50
Equipment and vehicles	5-30
Sanitary sewers and lift stations	30-50
Infrastructure	20-50
Right to use subscription assets	2-5

City of Marshalltown
Notes to Financial Statements
June 30, 2024

Property, plant and equipment of the Water Works is depreciated using the straight-line method over the following estimated useful lives.

	Years
Plants, wells, and storage	10-40
Distribution property	50-99
Meters	10-20
Vehicles	5
Equipment	7-10

Right to use subscription IT assets. SBITA assets are recognized at the subscription commencement date and represent the City's right to use the underlying IT asset for the subscription term. Right to use subscription IT assets are measured at the initial value of the subscription liability plus any payments made to the vendor at the commencement of the subscription term, less any subscription incentives received from the vendor at or before the commencement of the subscription term, plus any capitalizable initial implementation costs necessary to place the subscription asset into service. Right to use subscription IT assets are amortized over the shorter of the subscription term or useful life of the underlying asset using the straight-line method. The amortization period varies from 2 to 5 years.

Pensions. For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (income), information about the fiduciary net position of the Iowa Public Employees' Retirement System and the Municipal Fire and Police Retirement Systems' and additions to/deductions from the Systems' fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability (asset) attributable to the governmental activities will be paid primarily by the General Fund.

Total OPEB Liability. For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information has been determined based on the City's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total OPEB liability attributable to the governmental activities will be paid primarily by the General Fund.

Statement of Cash Flows – Cash Equivalents. For purposes of the Statement of Cash Flows for the proprietary funds and the component unit, all short-term cash investments that are highly liquid (including restricted assets) are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase they have a maturity date no longer than three months.

Fund Equity. In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable fund balances cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact.

Restricted fund balances are restricted for specific purposes when constraints placed on the use of the resources are either externally imposed by their providers, such as creditors, grantors, or other governments; or imposed by law through constitutional provisions or enabling legislation.

Committed fund balances can be used only for specific purposes determined pursuant to constraints formally imposed by the City Council, the highest level of decision-making authority, through resolution approved prior to year-end.

Assigned fund balances are amounts the City intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. These amounts are assigned by City Council.

Unassigned fund balances are amounts not included in the other spendable classifications. The general fund is the only fund that reports a positive unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless City Council has provided otherwise in its commitment or assigned actions.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

As of June 30, 2024, fund balances consisted of the following:

	General	Road Use Tax	Local Option Sales Tax	Property Tax	Disaster Fund	HUD Programs	Grant Fund	American Rescue Plan	Debt Service	Public Works and Other Projects	Nonmajor Governmental Funds	Total
Nonspendable												
Inventory and prepaid items	\$ 588,186	\$ 115,029	\$ -	\$ -	\$ -	\$ 20,749	\$ 454,980	\$ -	\$ -	\$ -	\$ 672	\$ 1,179,616
Restricted for

Committed												
Capital improvements	250,000	-	-	-	-	-	-	-	-	-	-	250,000
Unassigned												
Total fund balance	\$ 7,522,003	\$ 10,394,333	\$ 5,927,763	\$ 3,866,492	\$ -	\$ 377,842	\$ (768,008)	\$ -	\$ 401,604	\$ 25,984,222	\$ 1,542,727	\$ 55,248,978

Note 2 - Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. At June 30, 2024, disbursements did not exceed amounts budgeted.

Note 3 - Deposits and Investments

Deposits. The City's deposits in banks at June 30, 2024, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

As of June 30, 2024, the City's carrying amount of deposits, related bank balances, and other cash, including fiduciary funds, were as follows:

	Carrying Amount	Bank Balance
Demand deposits	\$ 47,026,864	\$ 47,235,894
Iowa Public Agency Investment Trust	30,769,034	30,769,034
Treasury securities	9,997,871	9,997,871
Petty cash	1,975	-
 Total	 \$ 87,795,744	 \$ 88,002,799

The Marshalltown Water Works' carrying amount of deposits was \$7,542,748, all of which was covered by federal depository insurance or insured by the state through pooled collateral, State Sinking Funds and by the state's ability to assess for lost funds.

The City and the Water Works are authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the City Council or Board of Trustees and the Treasurer of the State of Iowa; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Interest Rate Risk. The City's investment policy limits the investments of operating funds (funds expected to be expended in the current budget year or within fifteen months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in instruments with maturities longer than 397 days, but the maturities shall be consistent with the needs and use of the City. The City did not hold any instruments with a maturity greater than 397 days during the year.

Credit Risk. The City's investment policy limits investments in commercial paper and other corporate debt to the top two highest classifications. The City did not invest in any commercial paper or other corporate debt during the year.

Concentration of Credit Risk. The City's investment policy does not allow for a prime bankers' acceptance or commercial paper and other corporate debt balances to be greater than ten percent of its total deposits and investments. The policy also limits the amount that can be invested in a single issue to five percent of its total deposits and investments. The City held no such investments during the year.

Custodial Credit Risk – Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City's deposits are entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

Custodial Credit Risk – Investments. For an investment, this is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City had no custodially-held investments during the year.

The City uses the fair value hierarchy established by generally accepted accounting principles based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, Level 3 inputs are significant unobservable inputs. The recurring fair value of the Treasury securities was determined using quoted market prices for similar assets (Level 2 inputs). Treasury securities of the City mature within 365 days and were rated Aaa by Moody's Investors Service at the time of purchase.

In addition, the City had investments in the Iowa Public Agency Investment Trust which are valued at an amortized cost of \$30,769,034. There were no limitations or restrictions on the withdrawals for the IPAIT investments. The City's investment in the Iowa Public Agency Investment Trust is unrated.

Note 4 - Interfund Balance and Transfers

Due to/from primary government and component unit balances as of June 30, 2024, consisted of the following:

Receivable Entity	Payable Entity	Amount
Primary Government	Component Unit	
Governmental Fund, General Fund	Water Works	\$ 10,213
Enterprise Fund, Water Pollution Control	Water Works	376,101
Enterprise Fund, Storm Sewer	Water Works	<u>84,230</u>
		<u><u>\$ 470,544</u></u>

Due from/to other funds as of June 30, 2024, consisted of the following:

Due to General Fund from	
Grant Fund	<u>\$ 258,773</u>
Due to Public Works fund from	
Nonmajor Governmental	<u>\$ 29,787</u>

City of Marshalltown
Notes to Financial Statements
June 30, 2024

The interfund balances result from negative cash balances.

Interfund transfers for the year ended June 30, 2024, consisted of the following:

Transfers to General Fund from	
Road use tax	\$ 969,197
Local option sales tax	388,000
Property tax	4,243,765
Public works and other projects	490,522
Grant	4,039
American rescue plan	49,389
Nonmajor governmental	<u>265,184</u>
 Total Transfers to General Fund	 <u>\$ 6,410,096</u>
Transfers to Public Works and Other Projects Fund from	
Road use tax	\$ 82,782
Local option sales tax	820,413
American rescue plan	2,498,551
Nonmajor governmental	297
Storm sewer	<u>251,479</u>
 Total Transfers to Public Works and Other Projects Fund	 <u>\$ 3,653,522</u>
Transfers to Grant fund:	
General	\$ 20,994
Local option sales tax	262,195
Nonmajor governmental	<u>217,275</u>
 Total Transfers to Grant Fund	 <u>\$ 500,464</u>
Transfers to Debt Service Fund from	
Local option sales tax	\$ 3,333,609
Nonmajor governmental	<u>325,806</u>
 Total Transfers to Debt Service Fund	 <u>\$ 3,659,415</u>

City of Marshalltown
Notes to Financial Statements
June 30, 2024

Transfers to Nonmajor Governmental Funds from	
Local option sales tax	\$ 5,374
General	4,464
Public works and other projects	1,626
Nonmajor governmental	<u>3,207</u>
 Total transfers to Nonmajor Governmental Funds	 <u>\$ 14,671</u>
Transfers to Nonmajor Enterprise Funds from	
General	\$ 286,597
Local option sales tax	<u>20,500</u>
 Total Transfers to Nonmajor Enterprise Funds	 <u>\$ 307,097</u>

Transfers are used to (1) move property tax revenues from the fund that state statute requires to collect them to the fund that expends the associated expenditure, (2) offset public works salaries within the general fund with road use tax dollars collected, and (3) move a portion of local option sales tax to the fund that is receiving the property tax relief.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

The resolutions providing for the issuance of the City's revenue bonds include the following provisions:

- (1) The bonds will only be redeemed from the future earnings of the enterprise activity and the bond holders hold a lien on the future earnings of the funds.
- (2) Sufficient monthly transfers shall be made to a separate sewer revenue bond and interest sinking fund for the purpose of making the bond principal and interest payments when due.

Future Requirements to Maturity. Principal and interest requirements to maturity for the City's bonds and notes outstanding as of June 30, 2024, are as follows:

Years Ending June 30,	Governmental Activities General Obligation Bonds and Notes		Business-Type Activities General Obligation Bonds and Notes	
	Principal	Interest	Principal	Interest
2025	\$ 4,895,000	\$ 1,716,866	\$ 990,000	\$ 69,350

 Legal debt margin	 <u>\$ 33,753,700</u>

During the current year, the City entered into a SBITA contract for the use of Flock Camera equipment software. As of June 30, 2024, the value of the subscription liability was \$93,507. The City is required to make annual principal and interest payments of \$96,000 through December 2024. The subscription has an interest rate of 3.3%. The combined value of the right to use asset, as of June 30, 2024, is \$187,507 with accumulated amortization of \$15,792. This was an agreement to provide data via flock cameras, which takes pictures of license plates to monitor what vehicles are coming in, out and around the City.

Years Ending June 30,	Governmental Activities	
	Principal	Interest
2025	\$ 93,507	\$ 2,493

Note 7 - Retirement Plans

The primary government participates in two public pension systems, Iowa Public Employees' Retirement System (IPERS) and Municipal Fire and Police Retirement System of Iowa (MFPSI). The component unit Water Works participates in IPERS only. The following sections outline the pension related disclosures for each pension of both entities. The aggregate amount of recognized pension expense for the period associated with the net pension liability for all plans is \$1,329,768 for the primary government and \$67,048 for the Water Works. Other aggregate amounts related to pension are separately displayed in the financial statements.

(a) Iowa Public Employees' Retirement System - IPERS

Plan Description – IPERS membership is mandatory for employees of the City and the Water Works, except for those covered by another retirement system. Throughout this IPERS disclosure, all references to the City will incorporate both the City and the Water Works, unless otherwise noted.

Employees of the City are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early retirement deduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits.) Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefits or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2024, pursuant to the required rate, Regular members contributed 6.29% of pay and the City contributed 9.44% for a total rate of 15.73%.

The City's total contributions to IPERS for the year ended June 30, 2024 were \$643,020. The Water Work's total contributions to IPERS for the year ended June 30, 2024 were \$111,018.

There were no non-employer contributing entities to IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2017)	2.60 percent per annum
Rates of salary increase (effective June 30, 2017)	3.25 to 16.25 percent, average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 2017)	7.00 percent compounded annually, net of investment expense including inflation
Wage growth (effective June 30, 2017)	3.25 percent per annum based on 2.60 percent inflation and 0.65 percent real wage inflation

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of a quadrennial experience study covering the period of July 1, 2017 through June 30, 2021.

Mortality rates used in the 2023 valuation were based on the PubG-2010 mortality tables with future mortality improvements modeled using Scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting and expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	21.0%	4.56%
Core Plus Fixed Income	23.0	2.69
International Equity	16.5	6.22
Private Equity/Debt	17.0	10.44
Private Real Assets	9.0	3.88
Private Credit	4.5	4.60
Global smart beta equity	5.0	5.22
Public Credit	3.0	4.38
Cash	<u>1.0</u>	<u>1.59</u>
	<u><u>100%</u></u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions from the City will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

City Specific IPERS Disclosures

Net Pension Liabilities (Asset), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2024, the City reported a liability of \$3,472,802 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2023, the City's collective proportion was .076940 percent, which was a decrease of .005589 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the City recognized pension expense (income) of \$260,347. At June 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 293,804	\$ 14,274
Changes of Assumptions	-	55
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	321,624	-
Changes in Proportion and Differences Between City Contributions and Proportionate Share of Contributions	81,703	272,621
City Contributions Subsequent to the Measurement Date	<u>643,020</u>	<u>-</u>
Total	<u>\$ 1,340,151</u>	<u>\$ 286,950</u>

The \$643,020 reported as deferred outflows of resources related to pensions resulting from the City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	Total
2025	\$ (114,586)
2026	(296,841)
2027	720,087
2028	94,051
2029	<u>7,470</u>
	<u>\$ 410,181</u>

Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate -
The following presents the City's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.0 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
City's Proportionate Share of the Net Pension Liability (Asset)	\$ 7,383,950	\$ 3,472,802	\$ 195,195

Payable to the Pension Plan - At June 30, 2024, the City reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Water Works Specific IPERS Disclosures

Net Pension Liabilities (Asset), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2024, the Water Works reported a liability of \$503,612 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Water Work's proportion of the net pension liability was based on the Water Work's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2023, the Water Work's collective proportion was .011157 percent which was an increase of .001866 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the Water Works recognized pension expense (income) of \$67,048. At June 30, 2024, the Water Utility reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Results	\$ 42,606	\$ 2,070
Changes of Assumptions	-	8
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	46,640	-
Changes in Proportion and Differences Between City Contributions and Proportionate Share of Contributions	89,783	8,311
Water Works Contributions Subsequent to the Measurement Date	<u>111,018</u>	<u>-</u>
Total	<u>\$ 290,047</u>	<u>\$ 10,389</u>

City of Marshalltown
Notes to Financial Statements
June 30, 2024

The \$111,018 reported as deferred outflows of resources related to pensions resulting from the Water Works contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30,	Total
2025	\$ 6,308
2026	(19,283)
2027	134,335
2028	38,138
2029	<u>9,142</u>
	 <u>\$ 168,640</u>

Sensitivity of the Utility's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the Water Utility's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the Water Utility's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate.

	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)
Water Works' Proportionate Share of the Net Pension Liability	\$ 1,070,791	\$ 503,612	\$ 28,306

Payable to the Pension Plan – At June 30, 2024, the Water Works reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

(b) Municipal Fire and Police Retirement System of Iowa – MFPSI

Plan Description – MFPSI membership is mandatory for fire fighters and police officers covered by provisions of Chapter 411 of the Code of Iowa. Employees of the City are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by MFPSI. MFPSI issues a stand-alone financial report which is available to the public by mail at 7155 Lake Drive, Suite 201, West Des Moines, Iowa 50366 or at www.mfpsi.org.

MFPSI benefits are established under Chapter 411 of the Code of Iowa and the administrative rules thereunder. Chapter 411 of the Code of Iowa and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – Members with 4 or more years of service are entitled to pension benefits beginning at age 55. Full-service retirement benefits are granted to members with 22 years of service, while partial benefits are available to those members with 4 to 22 years of service based on the ratio of years completed to years required (i.e., 22 years). Members with less than 4 years of service are entitled to a refund of their contribution only, with interest, for the period of employment.

Benefits are calculated based upon the member's highest 3 years of compensation. The average of these 3 years becomes the member's average final compensation. The base benefit is 66 percent of the member's average final compensation. Additional benefits are available to members who perform more than 22 years of service (2 percent for each additional year of service, up to a maximum of 8 years). Survivor benefits are available to the beneficiary of a retired member according to the provisions of the benefit option chosen plus an additional benefit for each child. Survivor benefits are subject to a minimum benefit for those members who chose the basic benefit with a 50 percent surviving spouse benefit.

Active members, at least 55 years of age, with 22 or more years of service have the option to participate in the Deferred Retirement Option Program (DROP). The DROP is an arrangement whereby a member who is otherwise eligible to retire and commence benefits opts to continue to work. A member can elect a 3, 4, or 5-year DROP period. By electing to participate in DROP the member is signing a contract indicating the member will retire at the end of the selected DROP period. During the DROP period the member's retirement benefit is frozen and a DROP benefit is credited to a DROP account established for the member. Assuming the member completes the DROP period, the DROP benefit is equal to 52% of the member's retirement benefit at the member's earliest date eligible and 100% if the member delays enrollment for 24 months. At the member's actual date of retirement the member's DROP account will be distributed to the member in the form of a lump sum or rollover to an eligible plan.

Disability and Death Benefits – Disability coverage is broken down into two types, accidental and ordinary. Accidental disability is defined as permanent disability incurred in the line of duty, with benefits equivalent to the greater of 60 percent of the member's average final compensation or the member's service retirement benefit calculation amount. Ordinary disability occurs outside the call of duty and pays benefits equivalent to the greater of 50 percent of the member's average final compensation, for those with 5 or more years of service, or the member's service retirement benefit calculation amount, and 25 percent of average final compensation for those with less than 5 years of service.

Death benefits are similar to disability benefits. Benefits for accidental death are 50 percent of the average final compensation of the member plus an additional amount for each child, or the provisions for ordinary death. Ordinary death benefits consist of a pension equal to 40 percent of the average final compensation of the member plus an additional amount for each child, or a lump-sum distribution to the designated beneficiary equal to 50 percent of the previous year's earnable compensation of the member or equal to the amount of the member's total contributions plus interest.

Benefits are increased (escalated) annually in accordance with Chapter 411.6 of the Code of Iowa which states a standard formula for the increases.

The surviving spouse or dependents of an active member who dies due to a traumatic personal injury incurred in the line of duty receives a \$100,000 lump-sum payment.

Contributions – Member contribution rates are set by state statute. In accordance with Chapter 411 of the Code of Iowa as modified by act of the 1994 General Assembly, to establish compliance with the Federal Older Workers Benefit Protections Act, the contribution rate was 9.40% of earnable compensation for the year ended June 30, 2024.

Employer contribution rates are based upon an actuarially determined normal contribution rate and set by state statute. The required actuarially determined contributions are calculated on the basis of the entry age normal method as adopted by the Board of Trustees as permitted under Chapter 411 of the Code of Iowa. The normal contribution rate is provided by state statute to be the actuarial liabilities of the plan less current plan assets, with such total divided by 1 percent of the actuarially determined present value of prospective future compensation of all members, further reduced by member contributions and state appropriations. Under the Code of Iowa the employer's contribution rate cannot be less than 17.00% of earnable compensation. The contribution rate was 22.98% for the year ended June 30, 2024.

The City's contributions to MFPSI for the year ended June 30, 2024 was \$1,148,297.

If approved by the state legislature, state appropriation may further reduce the employer's contribution rate, but not below the minimum statutory contribution rate of 17.00% of earnable compensation. The State of Iowa therefore is considered to be a non-employer contributing entity in accordance with the provisions of the Governmental Accounting Standards Board Statement No 67 – *Financial Reporting for Pension Plans*.

There were no state appropriations to MFPSI during the fiscal year ended June 30, 2024.

Actuarial Assumptions - The total pension liability in the June 30, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2017)	3.00 percent per annum
Rates of salary increase (effective June 30, 2017)	3.75 to 15.11 percent, average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 2017)	7.50 percent compounded annually, net of investment expense including inflation

The actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period of July 1, 2012 to June 30, 2022.

Postretirement mortality rates were based on the RP-2014 Blue Collar Combined Healthy Annuitant Table with males set-forward zero years, females set-forward two years and disabled individuals set-forward three years (male only rates), with generational projection of future mortality improvement with 50% of Scale BB beginning in 2017.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (i.e., expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Broad Fixed Income	4.9%
Broad U.S. Equity	7.1%
Global Equity	7.2%
Broad Non-US Equity	7.4%
Managed Futures	5.2%
Real Estate - Core	6.8%
Opportunistic Real Estate	11.1%
Global Infrastructure	6.9%
Private Credit	10.1%
Private Equity	12.1%

Discount Rate – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at 9.40% of covered payroll and the City contributions will be made at rates equal to the difference between actuarially determined rates and the member rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued MFPRSI financial report which is available on MFPRSI’s website at www.mfprsi.org.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2024, the City reported a liability of \$8,521,855 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City’s proportion of the net pension liability was based on the City’s share of contributions to the pension plan relative to the contributions of all MFPRSI participating employers. At June 30, 2023, the City’s collective proportion was 1.360886 percent which was a decrease of .03818 percent from its proportion measured as of June 30, 2022.

City of Marshalltown
 Notes to Financial Statements
 June 30, 2024

For the year ended June 30, 2024, the City recognized pension expense of \$1,069,421. At June 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Results	\$ 651,082	\$ -
Changes of Assumptions	42,931	-
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	542,629	-
Changes in Proportion and Differences Between City Contributions and Proportionate Share of Contributions	144,316	493,336
City Contributions Subsequent to the Measurement Date	<u>1,147,215</u>	-
Total	<u>\$ 2,528,173</u>	<u>\$ 493,336</u>

The \$1,147,215 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ended June 30,	Total
2025	\$ (42,230)
2026	(393,328)
2027	1,150,724
2028	167,191
2029	<u>5,265</u>
	<u>\$ 887,622</u>

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate.

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
City's Proportionate Share of the Net Pension Liability (Asset)	\$ 14,924,573	\$ 8,521,855	\$ 3,221,661

Payables to the Pension Plan – At June 30, 2024, the City reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to MFPSI.

(c) Pension Plan – Marshalltown Water Works Supplemental Retirement and Pension Plan

Plan Description – The Water Works maintains the Marshalltown Water Works Supplemental Retirement and Pension Plan, which is a single employer defined benefit plan administered by United Bank and Trust.

The Plan was established by the Marshalltown Water Works' Board of Trustees on September 30, 1953. The Plan was restated and amended on January 1, 2014. The Board of Trustees has the authority to amend the Plan at any time.

Pension Benefits – Employees who retire at or after age 65, or age 62 with 25 years of credited service, are entitled to retirement benefits payable monthly for life. Monthly benefits are equal to 2.12% of the employee's five-year final average salary multiplied by the number of years of consecutive service for the year ended June 30, 2024. Service prior to January 1, 1986 shall be limited to 25 years. Benefits are fully vested on reaching 10 or more years of credited service.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability benefits is eligible to claim Water Works pension benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement and has participated in the plan for 10 or more years prior to death, and is totally vested, the surviving spouse may request a return of the participant's accrued contributions with interest to the date of the participant's death, or may leave the balance in the pension plan and be entitled to a joint and 100% survivor annuity at the time the participant would have become eligible for pension benefits.

Contributions – The Water Works' funding policy provides for employer and employee contributions at actuarially determined rates that are sufficient to accumulate assets to pay benefits when due. The frozen entry age actuarial cost method is used to determine annual plan costs. The employer contribution rate for the year ended June 30, 2024 and 2023 was 8.93% plus an additional \$5,000 per bi-weekly payroll. The employee contribution rate for the years ended June 30, 2024 and 2023 was 4.95%. Contributions paid by the Water Works for the year ended June 30, 2024 totaled \$188,581, and the contributions paid by employees totaled \$32,472.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2024, the Water Works reported a net pension liability of \$1,132,109. The net pension liability was measured as of March 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of March 31, 2024.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

For the year ended June 30, 2024, the Water Works recognized pension expense (income) of \$62,883. At June 30, 2024 Water Works reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Results	\$ 32,121	\$ -
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	- <hr/>	<hr/> 34,430
Total	\$ 32,121 <hr/>	\$ 34,430

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the pension will be recognized in pension expense as follows:

<u>Years Ending June 30,</u>	<u>Total</u>
2025	\$ (24,817)
2026	30,093
2027	18,575
2028	<hr/> (26,160)
	<hr/> <hr/> \$ (2,309)

Actuarial Assumptions – The total pension liability in the March 31, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rates of salary increase
(effective March 31, 2023) 3.00 percent per annum

Long-term investment rate of return
(effective March 31, 2023) 7.00 percent compounded annually

The actuarial assumptions used in the March 31, 2024 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the 1983 Group Annuity Mortality Table.

The long-term expected rate of return on pension plan investments was determined using best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation). These ranges are combined to produce the long-term expected rate of return. The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 6.67% based on the target allocation of assets summarized in the following table:

Asset Class	Asset Allocation
Large Cap Equity	30.0%
Small Cap Equity	10.0
International Equity	10.0
High Dividend Equity	10.0
Fixed Income	40.0
 Total	 <u>100.0%</u>

Sensitivity of the Water Works' Net Pension Liability to Changes in the Discount Rate – The following presents the Water Works' net pension liability calculated using the discount rate of 7.0 percent, as well as what the Water Works' net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.0 percent) or 1-percentage point higher (8.0 percent) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
Water Works' Proportionate Share of the Net Pension Liability	\$ 1,363,181	\$ 1,132,109	\$ 933,139

Note 8 - Other Postemployment Benefits

Plan Description - The City operates a single-employer retiree benefit plan which provides postemployment medical and dental benefits for retirees and their spouses. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Plan does not issue a stand-alone financial report.

OPEB Benefits - Retirees or eligible spouses are required to contribute for their coverage the following percentages of the total premium:

50% if disabled while on duty (police or fire) except disability related expenses are 100% paid by the City,
50% if retiring employee satisfies the rule of 88 or police/fire employee is 55 with 22 years of service,
50% for grandfathered police/fire,
100% for all other including surviving spouses.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

To be eligible for the medical and dental insurance coverage, a retiree must be at least 55 years old, or disabled and receiving or eligible to receive a pension under the Iowa Public Employees' Retirement System (IPERS) or the Municipal Fire and Police Retirement System of Iowa (MFPSI). At July 1, 2023 the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	50
Active employees	<u>147</u>
Total	<u><u>197</u></u>

Total OPEB Liability – The City's total OPEB liability of \$13,604,622 was measured as of June 30, 2024, and was determined by an actuarial valuation as of July 1, 2023.

Actuarial Assumptions – The total OPEB liability in the July 1, 2023 actuarial valuation was determined using the following actuarial assumptions and the entry age normal actuarial cost method, applied to all periods included in the measurement.

Rate of inflation (effective June 30, 2024)	3.00% per annum
Rates of salary increase (effective June 30, 2024)	0.00%, OPEB's directly determined by Service Years not Salary
Discount rate (effective June 30, 2024)	4.75% compounded annually, net of investment expense including inflation
Healthcare cost trend rate (effective June 30, 2024)	6.00%

Discount Rate – The discount rate used to measure the total OPEB liability was 4.75% which reflects the index rate for 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date.

Mortality rates are from the RP 2014 Annuity Mortality table. Annual retirement probabilities are based on varying rates by age and turnover probabilities mirror those used by IPERS.

The actuarial assumptions used in the July 1, 2023 valuation were based on the results of an actuarial experience study with dates corresponding to those listed above.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – For the year ended June 30, 2024, the City recognized OPEB expense of \$650,605. At June 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,118,845	\$ 3,411,792
Changes in assumptions	<u>1,509,736</u>	<u>2,699,866</u>
Total	<u>\$ 5,628,581</u>	<u>\$ 6,111,658</u>

The amount reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Years Ending June 30	Total
2025	\$ (181,624)
2026	(88,967)
2027	(56,063)
2028	(82,497)
2029	(87,824)
Thereafter	<u>13,898</u>
	<u>\$ (483,077)</u>

Note 9 - Risk Management

The City is a member in the Iowa Communities Assurance Pool (Pool), as allowed by Chapter 670.7 of the Code of Iowa. The Pool is a local government risk-sharing pool whose 800+ members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials' liability, police professional liability, property, inland marine, and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses, and reinsurance expenses due and payable in the current year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained at a level determined by the Board not to exceed 300% of the total current members' basis rates or to comply with the requirements of any applicable regulatory authority having jurisdiction over the Pool.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses and reinsurance premiums, all of which are due and payable in the current year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The City's property and casualty contributions to the risk pool are recorded as expenditures from its operating funds at the time of payment to the risk pool. The City's contributions to the Pool for the year ended June 30, 2024 were \$657,965.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional and public officials' liability risks up to \$500,000 per claim. Claims exceeding \$500,000 are reinsured through reinsurance and excess risk-sharing certificate. Property and automobile physical damage risks are retained by the Pool up to \$250,000 each occurrence, each location, with excess coverage reinsured by Lexington Insurance Company.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim or series of claims exceeds the amount of risk-sharing protection provided by the member's risk-sharing certificate, or in the event that a series of casualty claims exhaust total members' equity plus any reinsurance and any excess risk-sharing recoveries, then payment of such claims shall be the obligation of the respective individual member. The City does not report a liability for losses in excess of reinsurance or excess risk-sharing recoveries unless it is deemed probable that such losses have occurred and the amount of such losses can be reasonably estimated. Accordingly, at June 30, 2024, no liability has been recorded in the City's financial statements. As of June 30, 2024, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given sixty days prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Members withdrawing within the first six years of membership may receive a partial refund of their casualty capital contributions. If a member withdraws after the sixth year, the member is refunded 100% of its casualty capital contributions. However, the refund is reduced by an amount equal to the annual casualty operating contribution which the withdrawing member would have made for the one-year period following withdrawal.

The City has established a Group Insurance Benefits Fund for insuring health benefits provided to City employees and covered dependents which is included as an internal service fund. Health benefits were self-insured up to a specific stop-loss amount of \$85,000 and an aggregate stop-loss of approximately \$2,800,000 for 2024. Coverage from a private insurance company is maintained for losses in excess of the aggregate stop-loss amount. All claims handling procedures are performed by a third-party claims administrator. Reported claims as of June 30, 2024, as well as incurred but not reported claims, have been accrued as a liability based upon the claims administrator's estimate and are included in accounts payable. The liability does not include any allocated or unallocated claim adjustment expenses.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

All operating funds of the City participate in the program and make payments to the Group Insurance Benefits Fund based on actuarial estimates of the amounts needed to pay prior and current year claims.

The City has established an Occupational Insurance Benefits Fund to self-insure for workers' compensation benefits for all currently employed police officers and firefighters and police officers and firefighters who have retired due to an accidental disability prior to December 1992, in accordance with Chapter 411.15 of the Code of Iowa. The General Fund is charged for benefits paid to police officers and firefighters by the Occupational Insurance Benefits Fund, which is also accounted for as an internal service fund. Reported claims as of June 30, 2024, as well as incurred but not reported claims, have been accrued as a liability based upon the City's best estimate and are included in accounts payable. The liability does not include any allocated or unallocated claim adjustment expenses. There is no stop-loss insurance for this coverage.

The claims liabilities of \$223,284 in the Group Insurance Benefits Fund and \$3,157 in the Occupational Insurance Benefits Fund are based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The entire amounts will be paid within one year of year-end.

Changes in reported liabilities for the fiscal years ended June 30, 2024 and 2023, are summarized as follows:

	Group Insurance Benefits Fund	Occupational Insurance Benefits Fund
Liabilities as of June 30, 2022	\$ 367,415	\$ 15,095
Claims and Changes in Estimates During Fiscal Year 2023	3,208,379	76,167
Claim Payments	<u>(3,275,929)</u>	<u>(49,512)</u>
Liabilities as of June 30, 2023	299,865	41,750
Claims and Changes in Estimates During Fiscal Year 2024	2,990,926	35,635
Claim Payments	<u>(3,067,507)</u>	<u>(74,228)</u>
Liabilities as of June 30, 2024	<u>\$ 223,284</u>	<u>\$ 3,157</u>

Note 10 - Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all regular City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees, until termination, retirement, death, or unforeseeable emergency. The plan complies with IRC Section 457(g), which allows for the plan to hold its assets in trust. Under these requirements, the City does not own the amount deferred by employees and, therefore, the liability and corresponding investment are not reflected in the financial statements.

During this fiscal year, the City also made payroll IRAs available to its employees in accordance with Internal Revenue Code Section 401. This plan is also available to all regular City employees. Participation is optional and withdrawals are governed by current IRS regulations.

Note 11 - Commitments

The City has recognized as a liability only that portion of construction contracts representing construction completed through June 30, 2024. The City has additional commitments for signed construction contracts of approximately \$15,700,000 as of June 30, 2024, to be paid as work on the projects progresses.

Note 12 - Major Customer

The financial statements of the Water Pollution Control Enterprise Fund include sales and receivables from Swift and Company, a major customer, of \$3,624,854 and \$360,561 respectively.

Note 13 - Litigation

The City is a defendant in several claims and lawsuits. In the opinion of the City Attorney and management, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Note 14 - Deficit Balances

At June 30, 2024, funds with deficit balances were as follows:

Special Revenue Fund - Grant Fund	\$ (768,008)
Non-major Capital Projects Fund - Airport Projects Fund	(29,787)
Non-major Enterprise Fund - Recreation Concessions	(14,808)
Internal Service Fund - Group Insurance Benefits	(407,446)

These deficit balances will be recovered through future grant funding and future charges for services.

Note 15 - Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

The City provides tax abatements for urban renewal and economic development projects with tax increment financing as provided for in Chapters 15A and 403 of the Code of Iowa. For these types of projects, the City enters into agreements with developers which require the City, after developers meet the terms of the agreements, to rebate a portion of the property tax paid by the developers, to pay the developers an economic development grant or to pay the developers a predetermined dollar amount. No other commitments were made by the City as part of these agreements.

For the year ended June 30, 2024, \$218,562 of property tax was diverted from the City under the urban renewal and economic development projects.

Note 16 - Subsequent Events

On January 9, 2023, the City of Marshalltown authorized a loan through the Iowa Finance Authority State Revolving Fund (SRF) for wastewater projects in the amount of \$13,125,000. On February 27, 2024, the City accepted a principal forgiveness award up to \$2 million, which will be applied to the loan once the project is complete and all final documents have been completed by the City. Loan forgiveness was offered because the City of Marshalltown met the Program's definition of disadvantaged community and project eligibility criteria. The SRF program reimburses the City as expenses are incurred and a request for reimbursement is made. In FY23, the City received \$2,120,002 including the SRF loan initiation fee. In FY24, the City received \$6,935,591. The remaining amount of \$4,069,407 is anticipated to be received in FY25.

In fiscal year 2024, Marshall County overpaid the City of Marshalltown \$411,302 for the Urban Renewal Area 4 Tax Increment Financing compared to what the City had certified. The City reduced its certification in fiscal year 2026 by the same amount, since fiscal year 2025's certification was already established.

City of Marshalltown
Notes to Financial Statements
June 30, 2024

Note 17 - Lease Receivable

The City owns buildings located at the airport which the City rents to Marshalltown Aviation. Effective January 1, 2022, the City entered into a 15-year lease. The City is to receive monthly payments of \$2,333, respectively with an incremental lending rate of 2.0%. During the year ended June 30, 2024, the City earned principal of \$21,541 and interest of \$6,459 on the agreement. A summary of the remaining lease receivable principal and interest to maturity is as follows:

Years Ending June 30,	Principal	Interest	Total
2025	\$ 21,975	\$ 6,024	\$ 27,999
2026	22,419	5,581	28,000
2027	22,871	5,129	28,000
2028	23,333	4,667	28,000
2029	23,804	4,196	28,000
2030-2034	126,424	13,576	140,000
2035-2037	65,061	1,679	66,740
Total	\$ 305,887	\$ 40,852	\$ 346,739

Note 18 - Restatement

During the fiscal year 2024, the Disaster Fund, which was previously reported as a major governmental fund, is now reported as a nonmajor governmental fund due to failing to meet the quantitative threshold to be classified as a major fund. Due to an increase in deferred inflows of resources, the Grant Fund now meets the quantitative threshold to be classified as a major governmental fund. The Grant Fund was previously reported as a nonmajor governmental fund.

Adjustments to the financial statements were as follows:

	<u>July 1, 2023</u>	<u>Change within</u>	<u>July 1, 2023</u>
	<u>As Previously</u>	<u>the Financial</u>	<u>As Restated</u>
	<u>Reported</u>	<u>Reporting Entity</u>

City of Marshalltown
Notes to Required Supplementary Information – Budgetary Reporting
Year Ended June 30, 2024

The budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the City Council annually adopts a budget on the cash basis following required public notice and hearing for all funds except internal service funds. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control is based upon nine (9) major classes of disbursements known as functions, not by fund or fund type. These nine functions are: public safety, public works, health and social services, culture and recreation, community and economic development, general government, debt service, capital projects and business-type activities. Function disbursements required to be budgeted include disbursements for the General Fund, Special Revenue Funds, the Debt Service Fund, Capital Projects Funds and Enterprise Funds. Although the budget document presents function disbursements by fund type, the legal level of control is at the aggregated function level, not by fund. During the year, one budget amendment was prepared with the required public hearing. The amendment decreased budgeted disbursements by \$5,121,878, excluding transfers out.

At June 30, 2024, disbursements did not exceed the amended budgeted amounts.

2016	0.0827000%	4,109,324	5,714,192	71.91%	85.19%
2015	0.0827556%	3,349,191	5,521,483	60.66%	87.61%

See accompanying notes to required supplementary information.

In accordance with GASB Statement No. 68, the amounts presented for each fiscal year were determined as of June 30 of the preceding fiscal year.

* The Plan has three groups; regular, sheriff, and protection. In total, the Plan reported a net pension asset at June 30, 2021. However, the City only participates in the regular and protection groups. The City's portions of these groups resulted in a net pension liability at June 30, 2021.

Changes of benefit terms

There are no significant changes in benefit terms.

Changes of assumptions

The 2022 valuation incorporated the following refinements after a quadrennial experience study:

- Changed mortality assumptions to the PubG-2010 mortality tables with mortality improvements modeled using Scale MP-2021.
- Adjusted retirement rates for Regular members.
- Lowered disability rates for Regular members.
- Adjusted termination rates for all membership groups.

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017
- Adjusted retirement rates
- Lowered disability rates
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit
- Adjusted the merit component of the salary increase assumption

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

2015	1,208,879	1,208,879	-	3,975,266	30.41%

Notes to Required Supplementary Information – Pension Liability:

Changes of benefit terms: There were no significant changes of benefit terms.

Changes of assumptions:

The 2018 valuation changed the Postretirement mortality rates to the RP-2014 Blue Collar Combined Health Mortality Table with males set-forward two years, females set-forward two years and individuals with disabilities set-forward three years (male only rates), with generational projection of future mortality improvement with 50% of Scale BB in 2017.

The 2017 valuation added five years projection of future mortality improvement with Scale BB.

The 2016 valuation changed postretirement morality rates to the RP-2000 Blue Collar Combined Healthy Mortality Table with males set-back two years, females set-forward one year and disabled individuals set-forward one year (male only rates), with no projection of future mortality improvement.

The 2015 valuation phased in the 1994 Group Annuity Mortality Table for post-retirement mortality. This resulted in a weighting of 1/12 of the 1971 Group Annuity Mortality Table and 11/12 of the 1994 Group Annuity Mortality Table.

Other Supplementary Information
June 30, 2024

City of Marshalltown

Special Revenue Funds

Special Contributions – To reflect activities associated with donations and special contributions to various City departments.

Tax Increment Financing – To account for revenue taxes levied for specific uses within the designated district. Specific uses may include the construction of infrastructure and payments associated with debt and other development agreements.

Disaster Fund – To account for Federal and State funds the City received in response to the Derecho windstorm used for debris removal, emergency protective measures, and other repair projects throughout the City.

Other – To account for other various revenues, seized assets, City tort liability, special assessments and economic development gift funding.

Capital Projects Fund

Airport Projects – To account for ongoing projects at the municipal airport.

Culture and Recreation Projects – To account for resources used in the acquisition and construction of capital facilities and other capital assets associated with the City's culture and recreation function.

Nonmajor Enterprise Funds

Compost Facility – To account for the operation and maintenance of the City's facility for yard wastes. Services are supported primarily by user charges.

Bus Transit – To account for the City's mass transit operations. Services are supported primarily from transit property taxes accounted for and transferred from the General Fund, intergovernmental revenues, and user charges.

Recreation Concessions – To account for the concession's activity of the municipal swimming pool. Services are supported by user fees.

Statistical Section (Unaudited)

June 30, 2024

City of Marshalltown

This part of the City's statistical annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	114
Revenue Capacity These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	121
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	128
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	133
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	135

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial report for the relevant year.

Notes: Effective with the January 1, 1999 valuations, Alliant Energy, the local gas and electric provider, is assessed a utility excise tax instead of taxes based upon property valuations.

Starting with levy year 2021, the tax-exempt property is only for the City properties. Prior to this, it was for all of Marshall County.

Each year the State of Iowa assigns a rollback factor to calculate the percent of assessed value which will be taxable.

This rate is assigned per property classification and can fluctuate each year. Industrial property is taxed at 100% of its gross assessed value.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Marshalltown. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping government.

(1) Current tax collections reflect payments received by the Marshall County Treasurer's office from July 1 through June 30 of each year. Taxes levied for the current year are classified as delinquent if not paid by June 30 each year.

(2) Collection percentages are close to 100% each year since the State of Iowa provides for "tax sales" in June of each year for properties with unpaid taxes. Substantially all of the taxes are paid by investors purchasing tax certificates from the "tax sales." Collections in excess of 100% are due to rounding differences when tax rates are applied to property valuations, differences in tax credits reimbursed by the State of Iowa, or changes in taxable valuations by the County Assessor after the City's budget is certified.

(3) Delinquent tax collections reflect amounts of delinquent taxes the City received during the year. Information is not available from the County Treasurer's Office as to the year(s) for which the delinquent tax collections apply.

City of Marshalltown

**Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed in Accordance with
*Government Auditing Standards***

To the Honorable Mayor and
Members of the City Council
City of Marshalltown, Iowa

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Marshalltown, Iowa (the City), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated July 31, 2025. In our report, we issued an adverse opinion on the aggregate discretely presented component units because the statements did not include a component unit of the City. Our report expressed unmodified opinions on the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City.

Our report includes a reference to other auditors who audited the financial statement of the Marshalltown Waterworks, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001, that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the City's operations for the year ended June 30, 2024 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the City and are reported in Part IV of the accompanying schedule of findings and questioned costs. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

The City's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Federal Program and Report on
Internal Control Over Compliance Required by the Uniform Guidance**

To the Honorable Mayor and
Members of the City Council
City of Marshalltown, Iowa

Report on Compliance for Each Major Federal Program

Qualified and Unmodified Opinions

We have audited the City of Marshalltown, Iowa's (the City) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2024. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Qualified Opinion on Section 8 Housing Choice Vouchers

In our opinion, except for the noncompliance described in the Basis for Qualified and Unmodified Opinions section of our report, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Section 8 Housing Choice Vouchers program for the year ended June 30, 2024.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2024.

Basis for Qualified and Unmodified Opinions

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Matter Giving Rise to Qualified Opinion on Section 8 Housing Choice Vouchers

As described in the accompanying schedule of findings and questioned costs, the City did not comply with requirements regarding Assistance Listing No. 14.871 Section 8 Housing Choice Vouchers as described in finding number 2024-003 for Reporting.

Compliance with such requirement is necessary, in our opinion, for the City to comply with the requirements applicable to that program.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the noncompliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2024-002 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in black ink that reads "Eric Baily LLP". The signature is fluid and cursive, with "Eric" and "Baily" connected and "LLP" in a smaller, separate section.

City of Marshalltown
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2024

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal award activity of the City of Marshalltown, Iowa under programs of the federal government for the year ended June 30, 2024. The information is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or fund balance, or cash flows of the City.

Note 2 - Significant Accounting Policies

Expenditures reported in the schedule of expenditures of federal awards are recognized on the modified accrual basis, except for subrecipient expenditures, which are recorded on the cash basis. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note 3 - Indirect Cost Rate

The City has not elected to use the 10% de minimis cost rate.

City of Marshalltown
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Part II: Findings Related to the Financial Statements:

Material Weakness

2024-001 Material Audit Adjustments

Criteria – A properly designed system of internal control over financial reporting allows entities to initiate, authorize, record, process, and report financial data reliably in accordance with generally accepted accounting principles.

Condition – During the course of our engagement, we proposed material audit adjustments to the financial statements and schedule of expenditures of federal awards which were necessary in order to present accurate financial information.

Cause – There is a limited number of office employees with varying levels of experience with reporting requirements. This significantly limits the City's review procedures.

Effect – The effect of this condition was financial data not in accordance with generally accepted accounting principles.

Recommendation – We recommend that finance staff continue to receive relevant training and that additional review procedures be implemented in preparing the financial statements.

Views of Responsible Officials – We agree with the auditor's recommendation and staff will seek training opportunities prior to the preparation of the next audit.

Part III: Findings and Questioned Costs for Federal Awards:

**2024-002 U.S. Department of Housing and Urban Development
Section 8 Housing Choice Vouchers 14.871 – IA125V08001 for FY24
Housing Voucher Cluster**

Reporting

Material Weakness in Internal Control Over Compliance and Material Noncompliance

Criteria – Per 2 CFR 200.303, the non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. This includes internal controls over maintaining records of the preparer and approver of required reports.

Condition – We identified three (3) instances in which the City did not use accurate financial information or retain evidence to document the individual who reviewed the Voucher Management System (VMS) reports prior to submission.

City of Marshalltown
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

Cause – The City's internal controls did not include separate management review of the VMS reports prior to submission.

Effect – Ineffective controls over this area of compliance could result in reports that are inaccurate or incomplete being submitted to the granting agency.

Questioned Costs – None reported.

Context – The population consists of twelve (12) monthly VMS reports. The sample consisted of three (3) monthly VMS reports.

Repeat Finding From Prior Years – No.

Recommendation – We recommend that the City revise its procedures to include evidence to document the individual who reviewed required reports prior to submission.

Views of Responsible Officials – We agree with the auditor's recommendation.

Part IV: Other Findings Related to Required Statutory Reporting:

- 2024-IA-A Certified Budget** – Disbursements at June 30, 2024 did not exceed the amended budget.
- 2024-IA-B Questionable Expenditures** – We noted no expenditures that we believe may fail to meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- 2024-IA-C Travel Expense** – No expenditures of City money for travel expenses of spouses of City officials or employees were noted.
- 2024-IA-D Business Transactions** – No business transactions between the City and City officials or employees were noted.
- 2024-IA-E Restricted Donor Activity** – No transactions were noted between the City, City officials, City employees and restricted donors in compliance with Chapter 68B of the Code of Iowa.
- 2024-IA-F Bond Coverage** – Surety bond coverage of City officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations.
- 2024-IA-G Council Minutes** – No transactions were found that we believe should have been approved in the Council minutes but were not.
- 2024-IA-H Deposits and Investments** – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the City's investment policy were noted.

City of Marshalltown
Schedule of Findings and Questioned Costs
Year Ended June 30, 2024

2024-IA-I **Revenue Bonds** – No instances of noncompliance with provisions of the City's revenue bond resolutions were noted.

2024-IA-J **Annual Urban Renewal Report** – The annual urban renewal report was properly approved and certified to the Iowa Department of Management on or before December 1.
