GETTING STARTED

The City of Marshalltown is embarking on a process to update the Comprehensive Plan. A Comprehensive Plan is a long-range vision, guide and design for the community's future. Updating the Comprehensive Plan is an important step in determining how the City desires to guide land use, plan for necessary redevelopment, and maintain strong housing and economic base. In addition, this plan will update supporting system plans including transportation, infrastructure, parks/trails and public facilities. The Comprehensive plan will be conducted over five phases: (1) Initiation and Analysis (2) Visioning and Goals/Policy Setting (3) Alternatives (4) Draft Plan Preparation (5) Final Plan Preparation and Council review and approval.

An integral part of the Comprehensive Plan process is developing background information to understand where the City is today in terms of demographics, development and issue identification. To fully understand Marshalltown we also need to reach out to residents and business owners to recognize what they care about and what their vision is for Marshalltown. This process was conducted over public meetings held during October 4th-6th and are summarized below.

MARSHALLTOWN COMPREHENSIVE PLAN STEERING COMMITTEE HOLDS KICK-OFF MEETING

On October 4th the Comprehensive Plan Steering Committee held it first meeting. The committee heard a brief presentation from Stantec, the City's consultants, on the background report and what they can expect during the process to update the Comprehensive Plan.

The Comprehensive Plan Steering Committee has a broad representation from: City Council; Plan & Zoning Commission; Marshalltown Central Business District; Marshalltown Community School District; MEDIC – Marshalltown Economic Development Impact Committee; METF – Martha Ellen Tye Foundations; Pioneering Healthier Communities; Live Well; YMCA

2011 COMPREHENSIVE PLAN UPDATE

SWOT Analysis 10-4-11

SWOT ANALYSIS

At the kick-off meeting, the Comprehensive Plan Steering Committee participated in a SWOT Analysis. The Steering Committee discussed what they believe Marshalltown's Strengths, Weaknesses, Opportunities and Threats (SWOT) are. Once all the lists were prepared, participants voted with dots identifying their highest priority in each category. Following are the results of the Steering Committee SWOT Analysis and voting results.

A similar exercise was conducted (results below) at a Community Wide vision forum (October 5th), Chamber of Commerce meeting and visits to three High School government classes at Marshalltown High School (Oct. 6th).
